

SOLUTION OVERVIEW

Challenge

To provide a complete
turnkey electronic billing
system

Solution

Inversion combines DART
software with key
management services
as a complete electronic
billing solution

Inversion Technologies provides an end-to-end electronic billing solution that combines DART™ software with turnkey management services that allows clients to focus on their core business. The flexibility of DART™ allows Inversion to customize the interfaces and pricing rules to match anyone's business model. Inversion also manages the inevitable changes that arise in the system.

Inversion provides a combination of custom job data entry screens, uniquely defined pricing rules, and reporting to match the business model of its clients. Job screens are designed to be intuitive and to match the needs of each individual client. The client's unique pricing rules are captured in the DART™ pricing engine. Additionally, Inversion creates and maintains custom reports as needed.

In the end, Inversion's clients enjoy improved consistency and accuracy of field-entered invoice data and are freed from the costs and barriers of a self-managed system.
